Subject: Draft Portland Harbor FS Report - distribution

All

As I mentioned at last week's TCT meeting, the LWG is starting production of the draft FS report and is trying to pin down document distribution. The LWG's official submittal date of March 30th is quickly (finally) approaching. Attached below is the distribution list for the RI report showing who received hard copies last time around. EPA is going to be cutting back on the number of hard copies of the draft FS that we will be getting, and DEQ has indicated they only need one hard copy. The LWG would like an updated headcount for the draft FS, as they are trying to limit the number of hard copies of the full report (sounds like it will be at least as big as the RI report). So....if you are on the list for a hard copy of the RI please indicate whether you need a hard copy of the draft FS. The LWG plans to mail CD copies to everyone on the list.

Also, EPA will be getting a limited number of the advance CD copies of the report a week early, but those will be subject to change in the official submittal. To avoid confusion, we are not planning to distribute those CDs unless we get a specific request.

thanks  
Chip
